Slavic Country Topographic Maps and Geospatial Information

1. Country Index Maps

East View Cartographic has off-the-shelf map coverage at 200k or 250k scales for ninety five percent of them. Many Russian 200k Quadrangles and 250k American JOGS index maps have already been added to our website and we are in process of adding other larger scale 100k and 50k index maps as time and resources permit. These give you precise information regarding the coverage we have available in-house and also allow customers to order more quickly and accurately the specific map sheets required. You may see the following example of index maps at various scales that are now posted on our website:

Ukraine 200k

2. City Plan Quicklooks

East View Cartographic is unique in being able to supply Russian produced City Plans for approximately 2,000 cities on a worldwide basis. We have now added to the website

"Quicklook" views for a number of the City Plans that are available on an off-the-shelf basis for customers.

3. Geospatial Data

East View Cartographic has greatly expanded its capabilities to provide both Vector Datasets and Digital Elevation Models for many more countries than previously. A general explanation of what we now have available can be seen at http://www.cartographic.com/geospatial_data.asp.

We are also now offering Digital Elevation Models for many countries at the countrywide, regional and local levels. http://www.cartographic.com/digital_elevation_models.asp#off-the-shelf and then at each level click on the "coverage available" link.

4. Other Maps and Atlases

This area of our website is constantly being expanded. We have added numerous atlases and other reference works covering numerous subjects such as Geology, Geophysics, Hydrology, Meteorology, Physical Geography, and many other subjects grouped according to Geographical Region and by country. For example, clicking on the following link will show you what is available for.

Ukraine

Humor: Genealogical Signs

"My family tree is full of notholes. It's not him, it's not her, it's not them . . ."

"You think you've got problems? How far do you think Adam and Eve got?"

"Genealogists will date any old thing."

"A great many family trees are the result of grafting."
